Woodpark Merino • Woodpark Poll

The Woodpark Poll sheep have been positioned to be at the premium end of all markets - wool and meat.

It's a statement backed by results:

Mulquiny Family

Victorian flock tops Australia's largest wether trial:

- Averaged $205/ head carcase and wool value.
- $10 a head above the next highest performing flock from 40 entrants in the Peter Westblade Memorial Merino Challenge.

The Mulquiny family of Wooroonook's six year old self-replacing Merino flock was founded with 110 six year old Woodpark Poll ewes, topped up the following year with 1.5yo Woodpark Poll ewes out of Jerilderie sale, joined to both grade and top end auction rams.

The Mulquinys wethers recorded:

- highest carcase value
- Highest rampower Dual purpose index
- Second highest Rampower Merino Production and Fine Production indexes
- Third highest wool return in the three year comparison

McCorkell Family

Change in breeding has big impact for south-west Victorian flock

Hamilton's McCorkell family has:

- **Lifted wool cuts by 20 to 30pc**
- **Increased body weight and carcase value**
- **Maintained micron at 17-18 micron since introducing Woodpark Poll genetics about seven years ago.**

The McCorkells' Merinos outperformed their well bred composite ewes in the 7000 ewe Merino and composite flock in 650mm rainfall country west of Hamilton.

Woodpark Poll Stud Sires

The stud size – 3000 breeding ewes, offers great depth and the selection of sires is considered and strategized, as seen in the adjoining table showing their ASBVs, and subject to stringent physical selection.

800 rams offered each year, with most rams being moved through private sales, and the top end at auction.

2019: 128 rams sold of 140 offered at auction, and about 535 rams placed in total through auction and private selection.

Although several clients had reduced ewe numbers due to drought in many regions, 14 new clients accessed Woodpark Poll genetics, including new and returning Merino breeders.

Young ewes at the Mulquiny family's Wooronook, Vic, farm, last Spring.

Woodpark Poll genetics positioned to attract premium in all markets.

Woodpark Poll

After 16 years and more than 400 flocks entered in Australia's largest sheep genetic evaluation, the combined Woodpark Poll flocks have had the highest combined fleece and carcase value of all bloodlines.

The results of the bloodline analysis of the Peter Westblade Memorial Merino Wether Challenge, come on the back of news that Wooronook's Mulquiny family repeated their success of topping the most recent wether trial's first last year, by recording the highest overall return for the 2018-2020 trial.

MULQUINYS MEASURE SUCCESS IN WETHER TRIAL

- **16 years, 400 flocks, Woodpoark Poll flocks ranked No.1 for combined fleece and carcase value, in Australia's largest commercial Merino trial, the Peter Westblade Memorial Merino Challenge.**
- **Mulquiny family achieved highest average return in the PWMMC.**
- **Mulquinys had highest combined fleece and carcase value - $259.17/head**
- **Highest carcase value**
- **Third highest wool return**
- **Australia's largest commercial Merino evaluation**
- **40 entrants in total**
- **Mulquinys started breeding six years ago**
- **Established flock with 110 6-year-old Woodpark Poll ewes and Woodpark Poll grade and auction rams**
- **Added Woodpark Poll-bred 1.5yo ewes from Jerilderie sale following year**
- **Liked elite wool and doing ability**
